They're guided by an assistant called a 'Pillar of Stone' (a man dressed as a lion). With some help they set out in their quest and face dangers and trials along the way. I had just read about three or four books of C.S. Lewis's Narnia series before I first read The Chronicles of Narnia. I was fascinated by the idea of talking animals and how they could talk and speak. What appealed to me was not just the idea of talking animals, but the idea of exploring another world. In the real world you may see the world through the eyes of a child, but you don't really understand it. You may experience life, but you don't really understand how it works. For children, those eyes and senses of the world are new and strange. The other world of Narnia, and its guardian, Aslan, was a place of mystery and magic. The books are adventures of a group of four children. They are Peter, Susan, Edmund, and Lucy Pevensie and the story begins when the Pevensie children are lost in the woods. The children are taken to a place called Narnia by the White Witch. She is the ruler of the land and she is particularly bitter that Aslan, a talking lion, has come to the world. The White Witch opposes Aslan and the children go through a wardrobe into Narnia where they meet the other Narnians. The White Witch sends out her minions and they try to destroy the children. The children find they are in a world of animals. This is because, once in Narnia, the children transform into animals. Aslan rescues them and the four children begin a journey to find the Lion, who guides them through the world of Narnia. Along the way, they encounter other beings in Narnia including a talking lion and talking bears. Aslan is powerful and magical and provides the children with protection as they travel through Narnia and face dangers. This story is told in two ways. Lewis has a narrator in the shape of a human child who talks about what he sees. We are told what happens to the children and also to Narnia, and the world of Narnia, from a third person perspective. Lewis also tells us from a third person perspective what is happening in Narnia, and we hear it from the children's perspective.
